

Answers to Questions received by EPA regarding 2008 AWPPG RFP

Question: (Generic) Could you provide me some feedback on whether my project would be of interest to your program?

Answer: Unfortunately, we can not specifically address questions on suitability of project proposals, given the strict rules we must adhere to in issuing these RFPs - - our advice is to judge your project against the review & threshold/eligibility criteria contained in the RFP. We can not provide pre-proposal assistance that may give a potential applicant a competitive edge over another applicant. So, please judge your project against these criteria listed in the RFP and see if it matches up.

Question: Could you please provide me with the listing of awards that were made under the FY 2006 AWPPG?

Answer: Please see the list of projects posted at: <http://www.epa.gov/owow/funding/archives.html>

Question: Would a State University be eligible for funding under this RFP?

Answer: Yes, under the eligibility section of the RFP on page 10 (**Section III. ELIGIBILITY INFORMATION**) - - State University's would be eligible entities.

Question: Can a proposal be submitted by more than one entity?

Answer: EPA awards funds to only one entity, but more than one organization can participate in the project. (Please see: **Section D. CONTRACTS AND SUBAWARDS** on page 8 for details.)

Question: Is this the first year you've made awards under this program?

Answer: No, actually we've issued similar RFPs in FY 2003 & 2006.
